THE LAW SCHOOL.

The Law School of the Columbian University is held in the Law Building, situated on Judiciary Square, Fifth street, between D and E streets.

ADMISSION.

The course of study is adapted to graduates of colleges, and to any who have attained a sufficient discipline of their mental powers. All, however, who desire, are admitted to the recitations and lectures of the School, it being understood that their graduation will depend on their success in mastering the daily exercises and in passing the final examinations. No one is admitted as a candidate for graduation in the Senior Class who has not spent one year either at this or some other Law School, or performed a corresponding amount of study under some approved attorney.

SESSIONS.

The entire course of study embraces two years. The annual session begins on the second Wednesday in October and ends on the second Tuesday in June. The exercises of the School are all held after the usual office hours, which close at 3 o'clock, thus giving to students the entire day for study, for reading in the public libraries and for attending the several courts of the Capital, and at the same time enabling young men engaged in office duties to avail themselves of the facilities of the School.

COURSE OF INSTRUCTION.

The School is divided into two classes, a Junior and a Senior.

Junior Class.

PROF. COX.

The instructor of the Junior Class, aiming to secure for his pupils a thorough and accurate knowledge of the law of *real and personal*

property, of contracts, and of crimes and misdemeanors, as it is possible for them to attain within the brief period of a scholastic year, places in their hands successively, *Blackstone's Commentaries*, *Ken's Commentaries*, *Parsons on Contracts*, and *Byles on Bills*, as text-books to be carefully read and studied by them. He meets the class on Monday, Wednesday, and Friday of each week. For each meeting a lesson of moderate length is assigned, and the lesson for the evening forms the subject of his lecture. In his lecture he reviews, illustrates, and simplifies, as far as he can, the teachings of the lesson; shows how far, and in what particulars, the law contained in it has been repealed or modified, either by English or American statutes, or by the American common law; notices, particularly, such English statutes as are in force in our own country as parts of the American common law; and tries to remove the doubts and uncertainties that are apt to trouble and perplex those entering for the first time upon the study of the law. And to insure a careful reading of the lesson, and proper attention to his lecture, he, at the close of the latter, questions the class upon the important points of each; and, by his catechetical analysis, reproduces, and impresses upon the memories of his pupils, the teachings of both lesson and lecture.

The Senior Class.

PRES. MAURY.

The students of the Senior Class meet the Professor charged with their especial instruction on Tuesday, Thursday, and Saturday of each week, and while pursuing the special studies of the Senior course are required to attend the recitations and lectures of the Junior year, that they may be thoroughly grounded in the law of real and personal property and of contracts.

The special studies of the Senior year begin with Common Law Pleading, in which Stephen on Pleading, as edited by Tyler, is used as the text-book of the class. Next follow instructions on the Law of Evidence, with the first volume of Greenleaf on Evidence as a manual. To these succeed instructions in Equity Jurisprudence and Equity Pleading and Practice—Smith's Manual of Equity, and Mitford and Tyler's Pleadings and Practice in Equity being the text-books used under these heads. The closing part of the course is occupied with the Law of Partnership considered in itself

and in its relations to remedies afforded in Courts of Equity. And because of their especial character, lectures are given on the remedies, Ejectment, Quo Warranto, Scire Facias, and Mandamus, as also lectures, by way of review, on Pleading and on Evidence, delivered at the close of the whole course.

The method of instruction pursued in this class is as follows: A lesson comprising a certain number of pages in the text-book is assigned to the class, and on the subject-matter of this lesson the Professor at his next meeting lectures according to the requirements of the case. At the next meeting he examines the class on the text and lecture of the preceding meeting—using for this purpose carefully written questions, and calling up indiscriminately the members of the class. In this way the students are trained to reproduce with readiness and accuracy the principles they have learned both from the text books and the Lectures of the Professor.

SPECIAL FACILITIES.

The city of Washington furnishes special facilities for the law student as well as for the general scholar. The unequalled collection of the Congressional Library is open during seven hours of each day to all who wish to examine any authority, or to take notes from any book of reference, ancient or modern. Besides the local courts, both of criminal and civil jurisdiction, the sessions of the Supreme Court are valuable for practical instruction to students. In addition to these, the discussions on patent law, the deliberations of the Court of Claims, and the debates on constitutional and international law in the Halls of Congress, form a combination of facilities open to persons desirous of general improvement.

EXAMINATION AND GRADUATION.

All candidates for graduation are required to pass a general examination, at the end of their course, on all the studies of the two years, in the presence of the Faculty and of such committee as the Trustees of the University may appoint. This examination is conducted upon printed questions, which are answered by each student in writing.

The degree of Bachelor of Laws is granted to students who, having passed both years of the prescribed course in the School, or who,

on presenting credentials of equivalent study in some law college or office, and passing one year in the School, shall sustain satisfactory examinations in all the studies of both the Junior and Senior classes.

The time spent in the Law School of the University is counted as part of the period of study required for admission to the bar of the Supreme Court of the District of Columbia.

PRIZES.

Three prizes, one of forty dollars, one of thirty dollars, and one of twenty dollars, are annually given to the respective authors of the best three essays among all those handed in by such members of the graduating class as shall compete for them. The prizes are awarded by the regular professors of the School.

COMMENCEMENT.

The degrees are publicly conferred, and the prizes publicly delivered, at the annual Commencement of the Law Department, when, in connection with other appropriate exercises, an address is delivered to the graduating class by an eminent member of the bar whom they may have selected for that purpose.

EXPENSES.

The entire charge for tuition, lectures, and all facilities of the School, is *eighty dollars* for a single year, or *one hundred and fifty dollars* for two years, payable in advance, half yearly, or in monthly instalments, at the option of students. Students desiring to devote three years or more to the preparation for graduation, giving special attention also to the subsidiary lectures of the course, may have this privilege by the payment of *two hundred dollars* for the entire course. Half-year tickets of admission to recitations and lectures are issued on the second Wednesday in October and February, on payment of *forty dollars* in advance. Half-year tickets to attendants on lectures and other exercises of the School, who are not candidates for graduation or subjects of examination, are furnished at *twenty dollars*, invariably in advance. A charge of *two dollars* is made for diplomas. Students from abroad can se-

cure board at prices as reasonable as in any other city. Those who wish to do so can occupy rooms in the College building at a charge of *forty dollars per year for room rent.*

Graduates of the School are admitted to all lectures of the undergraduate course in subsequent years without charge.

Post-Graduate Course in Practice.

A Post-graduate course of instruction in Common Law Practice, and in Equity Pleadings and Practice, designed to show the application of the principles of law to the transactions of business life and to the actual proceedings of courts, is conducted by Professors Cox and Maury, as a supplement to the undergraduate course of the Law School.

In the Common Law Branch the students use a work on Practice prepared by Professor Cox, after which they are exercised in the conduct and trial of causes, and thus taught to apply their theoretical learning in pleadings, practice, and evidence. In connection with this course, it is intended that they shall also study some such work as Archibald's Law of Nisi Prius. During more than half the term the exercises will be those of a Nisi Prius Moot Court.

In the Equity Branch the students will be instructed in the general principles of equity pleadings, and in the mode of conducting an equity cause. The text-book employed will be Mitford and Tyler's *Equity Pleadings and Practice.*

Candidates for admission to the Post-graduate course will be required to furnish evidence that they have been diligent and successful students of law for the term of two years. Diplomas of respectable law schools, certifying that their holders have been graduated after such a term of study, will be received as evidence of qualification for admission to the course. At the end of the course all such students who shall sustain a satisfactory examination in its instruction and exercises will be entitled to a diploma admitting them to the degree of Master of Laws. Students who have pursued a two-years' term of study in a lawyer's office will also be admitted to the course, on presenting a certificate of the fact from a lawyer under whose direction they may have studied; but such students, if aspiring to the degree of Master of Laws, will be required, as the

condition of receiving it, to sustain a satisfactory examination for the degree of Bachelor of Laws as well as for the degree of Master of Laws.

The tuition fee for this course, covering a period of nine months, is \$50.

THE MEDICAL SCHOOL.

The commodious building in which this School holds its sessions was given to the University through the munificence of WILLIAM W. CORCORAN, LL. D., and is situated on H street, between Thirteenth and Fourteenth streets, in Washington.

The School is furnished with a museum containing a valuable collection, and is also provided with other appointments suitable for purposes of medical, anatomical, and surgical study.

The plan of instruction pursued in the School comprises a course of didactic lectures on the seven essential branches of medical science, viz: Anatomy, Physiology, Materia Medica, Chemistry, Surgery, Obstetrics, and the Theory and Practice of Medicine, by which the student becomes versed in the *principles* of his profession; and, conjoined with this, ample opportunities will be afforded for bedside instruction, by which the general principles taught in the lecture-room can be verified, illustrated, and *practically applied*, under the immediate observation of the student. In this latter particular no pains will be spared to render him perfectly familiar with the various modes of examining patients, analyzing symptoms, and arriving at a correct diagnosis and prognosis of any case that may be presented. In like manner he will learn, from the hand of those ripe in experience, the art of prescribing medicines and of observing their effects, the mode of performing surgical operations, &c.

CLINICAL INSTRUCTION.

The opportunities for clinical instruction in the city of Washington have of late years increased in proportion to its augmented population and growing business activity. Providence Hospital, Columbia Hospital for Women, the Children's Hospital, the Washington Asylum, and the Freedmen's Hospital, together with the various Dispensaries in the city, present abundant facilities for the practical study of disease. Those members of the Faculty holding hospital positions will give notice of their respective clinical programmes at the commencement of the session.

In connection with the College there is a free dispensary service, from 1 to 3 p. m. daily. Students have the privilege of being present during these hours, and of witnessing the mode of examination and treatment of disease.

LIBRARIES, ARMY MEDICAL MUSEUM, &c.

The medical student has free access to the Libraries of Congress, of the Army Medical Museum, of the Smithsonian Institution, and of the Patent Office, all of which contain rare and costly works in every department of science and literature. The Army Medical Museum, situated on Tenth street, between E and F, is also open for inspection daily from 9 to 3 o'clock. With its unrivalled collection of pathological specimens, illustrating the results of disease in every form, and an almost unlimited number of other preparations, showing the effects of gun-shot wounds and surgical injuries of every kind, this Museum presents a field for study equal, and perhaps superior, to that of any institution of the same kind either in this country or Europe. As the College lectures begin at 5 30 in the evening, ample time is afforded during the term for visiting the public buildings and other places of interest.

PRACTICAL ANATOMY.

The Dissecting-Room, newly constructed in the most approved style, is large and thoroughly ventilated. It is amply supplied with gas-light, water, and everything that can contribute to the convenience and comfort of the student. The room is open during the day, and in the evening until 11 p. m., under the direction of the Demonstrator of Anatomy, who will always be present in the evening to give his personal attention to the classes and properly instruct them while conducting their dissections.

General Sketch of the Several Lecture Courses.

MATERIA MEDICA AND THERAPEUTICS.

PROF. JOHN C. RILEY, ONE OF THE ATTENDING PHYSICIANS TO PROVIDENCE HOSPITAL.

In this department great pains will be taken to render the student familiar with the natural history, the appearance or physical properties, as well as the chemical composition, of the various articles of the materia

medica. Medicines often fail to produce their appropriate effects because they are spurious, adulterated, unskillfully prepared, collected at the wrong season, or kept too long, &c. These various sources of error and disappointment will be discussed with care and minuteness, and for this purpose every article lectured upon will be exhibited to the class, and the various ways in which it is adulterated, with the best mode of detection, will be fully explained.

Special attention will be paid to the physiological effects and the therapeutical adaptation of remedies. Their *modus operandi* will be discussed, in a general way, at the commencement of the course, and each particular article subsequently noticed with reference to its particular action.

SURGERY.

PROF. J. FORD THOMPSON, ONE OF THE ATTENDING SURGEONS TO PROVIDENCE HOSPITAL.

The principles and practice of Surgery will be taught from this chair, both by didactic lectures and clinical instruction. Orthopedic Surgery and Diseases of the Genito-Urinary system will be included in this course. Regular clinics will be held during the term at Providence Hospital, where every facility will be afforded to the class for witnessing surgical operations. At the Medical building also operations will be performed upon the *cadaver*, and the use of all important surgical instruments and appliances will be demonstrated in the same manner. A fine collection of colored models, life-size, and illustrating surgical anatomy, forms an attractive feature of the surgical course.

THEORY AND PRACTICE OF MEDICINE.

PROF. W. W. JOHNSTON, ONE OF THE ATTENDING PHYSICIANS TO THE CHILDREN'S HOSPITAL.

The course of instruction in this department will, it is hoped, impress upon the memory of the student the main facts of pathology, and supply him with the necessary knowledge to observe the phenomena of disease.

The study of diseased tissue will be a constant prelude to that of disturbed function, and the relations of one to the other will be fully developed. In furtherance of this plan, microscopic teaching will be constantly used to supplement description and diagrammatic representation.

OBSTETRICS AND THE DISEASES OF WOMEN AND CHILDREN.

PROF. A. F. A. KING, ONE OF THE ATTENDING PHYSICIANS TO PROVIDENCE HOSPITAL.

The course in this department will comprise a series of sixty didactic lectures, illustrated by an elaborate collection of more than life-sized diagrams, manikins, models, and wet anatomical preparations. The various

obstetrical instruments, as well as those employed in the treatment of uterine diseases, will be exhibited to the class, and their uses explained. The professor will endeavor to provide cases of midwifery whenever practicable, but these will be given out only to advanced students or candidates for graduation. During the latter part of the term special attention will be given to the diseases of women, with a view to render the student familiar with the various modes of manual and instrumental examination, and the surgical and therapeutical remedies required in the management of uterine diseases.

CHEMISTRY AND TOXICOLOGY.

PROF. EDWARD T. FRISTOE.

The instruction in this department embraces—

1st. A short discussion of the various branches of Physics, as Specific Gravity, Pneumatics, Heat, Light, Electricity, &c., so far as they relate to the science of Chemistry.

2d. The principles of chemical Philosophy, the laws of chemical combination, and of chemical affinity in general.

3d. A discussion of the elementary bodies, both metallic and non-metallic, the best methods of preparing the various inorganic bodies, their properties and reactions, and the means of detecting their presence.

4th. The so-called "Organic bodies" will be considered, as far as time will permit, especially those most useful to the physician, such as organic acids and their salts, alkaloids, &c.

Throughout the entire course the application of Chemistry to Medicine and Pharmacy will be constantly brought before the student.

Special attention is given to Toxicology. Every poison is studied, so far as the tests for its presence, and appropriate antidotes, are concerned.

The principles of the science are abundantly illustrated by experiments.

ANATOMY, DESCRIPTIVE AND SURGICAL.

ELLIOTT COUES, M. D., PH. D., ASSISTANT SURGEON U. S. ARMY.

These lectures will be so arranged as to give a course of descriptive and surgical anatomy as completely as possible within the limits of the session, including the necessary elements of normal histology, and illustrated by appropriate preparations, diagrams, and models. Examinations will be conducted weekly throughout the course.

The Demonstrator of Anatomy, in addition to giving his personal attention to the student in the dissecting-room, will assist the didactic lectures of the chair by such practical demonstrations as occasion may suggest.

PHYSIOLOGY

PROF. WM. LEE, ONE OF THE VISITING PHYSICIANS TO THE COLUMBIA DISPENSARY

This course of lectures will consist of a practical exposition of physiology, aided, as far as possible, by chemical experiments, diagrams, and the use of the microscope. The more fully to impress upon the memory of the student the important principles embraced in this part of his curriculum, reviews will be held from time to time in the form of class examinations. The course will be confined strictly to Physiology, with a view to cover fully the whole ground occupied by this branch.

TEXT-BOOKS AND WORKS OF REFERENCE.

ANATOMY.—Gray's Anatomy; Hodge's or Holden's Dissector; Sharpey & Quain's Anatomy; Stricker's Histology.

SURGERY.—Gross' System of Surgery; Heusen and Druit.

MATERIAL MEDICA.—Lancaster's Dispensatory; Wood's Therapeutics; Parrot's Materia Medica; Ray's Medical Medicinal Therapeutics.

CHEMISTRY.—Aitken's Medical Chemistry; Fowne's, Barker's Chemistry, or Bloxam's; Bowman's Medical Chemistry.

OBSTETRICS.—Leistman's, Hodge's and Gazzan's Obstetrics; Barnes & Thomas on Diseases of Women; Mergs & Pepper on Diseases of Children; and Diseases of Children by J. Lewis Smith.

PHYSIOLOGY.—Dalton's; Flint's Physiology; Burdon-Sanderson's Hand-Book of Physiology; Marshall's Physiology; Frey on the Microscope.

PRACTICE OF MEDICINE.—Niemeyer's, Flint's, Watson's, or Aitkin's Practice; Wunderlich's Medical Thermometry, Seguin's Rindfleisch's Pathological Histology.

FEES, REGULATIONS, &c.

The Annual Session begins on the first Monday of October and ends on the third Thursday of March.

The entire expense for a Full Course of Lectures by all the Professors is.....\$135 00

Single Tickets.....20 00

Practical Anatomy, by the Demonstrator.....10 00

Matriculating Fee, payable only once.....5 00

Graduating expenses.....30 00

No charge made for Clinical Lectures.

Payment of the fees is required in all cases, and tickets must be taken out at the commencement of the session.

The requisites for graduating are, that the candidate shall have attended the Lectures of each Professor two full courses; or one full course in this school, and one full course in some other respect.

able institution. He shall have studied medicine at least three years under the direction of some practitioner. He must have a good moral character, and he shall have dissected during at least two sessions. He shall have entered his name with the Dean of the Faculty as a candidate for graduation, and delivered to him an Inaugural Dissertation upon some medical subject thirty days before the close of the session, and must pass a satisfactory examination.

At the end of each term three prizes are given - a General Examination prize, a Thesis prize, and an Anatomical prize - valued at twenty-five dollars each.

All persons who have attended two full courses of Lectures in this School are entitled to attend succeeding courses free of expense.

Graduates of other accredited medical colleges after three years are required to matriculate only. Prior to the expiration of three years the fee for a general ticket is \$50.

The price of board and all other personal expenses are as reasonable in Washington as in other large cities of the Union.

THE COLUMBIAN COLLEGE.

The regular course of instruction given in this Department is comprised in seven schools, as follows:

I. SCHOOL OF ENGLISH: including English Philology, English Literature, Rhetoric, Logic, Elocution, General History, and Anglo-Saxon.

II. SCHOOL OF GREEK: including the Greek Language and Literature, and the History of Greece.

III. SCHOOL OF LATIN: including the Latin Language and Literature, and the History of Rome.

IV. SCHOOL OF MODERN LANGUAGES: including the French and German Languages and Literatures, with the History of France and Germany.

V. SCHOOL OF MATHEMATICS: including Pure Mathematics, Mechanics, and Astronomy.

VI. SCHOOL OF NATURAL SCIENCE: including Physics, Chemistry, and Natural History.

VII. SCHOOL OF PHILOSOPHY: including Mental and Moral Philosophy, Political Philosophy, and the Philosophy of History.

SCHOOL OF ENGLISH.

PROFESSOR SHUTE.

There are four classes in this school.

Freshman class.—Instruction is given in the grammatical forms of the English language, its structure, and its idiomatic character; also in reading, elocution, and composition.

Text-Book: Fowler's English Language.

Sophomore Class.—Instruction is given in the fundamental principles of style and invention, mainly in their rhetorical, and incidentally in their logical aspects. Instruction is given in elocution and composition; also, in the general outlines of English and American history.

Text-Books: Campbell's Rhetoric; Whately's Rhetoric; Smith's Student's Hume; Elliot's History of the United States.

Junior Class.—Instruction is given in the principles of pure and applied logic, and application of these principles is required in analyzing

and reconstructing ordinary forms of argumentation in select authors. Instruction is also given as to the origin, development, and present powers of the language; also, in the biography, times, and works of the best English writers.

Text-Books: Bowen's Logic; Thomson's Outlines of the Laws of Thought; Earle's Philology of the English Tongue; Shaw's English Literature.

Declamation and composition are required.

Senior Class.—Instruction is given in Anglo-Saxon and Early English, with select readings from the Anglo-Saxon Gospels, Beowulf, Ormulum, and Chaucer.

Text-Books: Shute's Manual of Anglo-Saxon; Corson's Hand-book of Anglo-Saxon and Early English; March's Anglo-Saxon Grammar.

Essays and original orations are required through the year.

The Anglo-Saxon being an optional study, is not required for a degree.

SCHOOL OF GREEK.

PROFESSOR HUNTINGTON AND TUTOR DAVIS.

In this School instruction is given in the Greek Language and Literature, and in Greek History. The School embraces four classes: Freshman, Sophomore, Junior, and Senior, with the following text-books:

1. In the Freshman class: Xenophon's Anabasis; Homer's Iliad; Goodwin's and Hadley's Greek Grammar; Boise's Exercises in Greek Syntax; and Smith's History of Greece.

2. In the Sophomore Class: Herodotus or Thucydides; Xenophon's Memorabilia; Hadley's Greek Grammar; Boise's Exercises in Greek Syntax.

3. In the Junior Class: Sophocles, Euripides, and Demosthenes.

4. In the Senior Class: Plato.

Lectures are given to the classes on Greek Literature.

To the two higher classes are assigned frequent exercises in rendering into Greek English translations from Greek authors.

Liddell and Scott's Greek Lexicon; Kilburn's Greek Grammar; Findlay's or Long's Classical Atlas, and Smith's Greek and Roman Antiquities, are recommended to students in all classes.

SCHOOL OF LATIN.

PROFESSOR HUNTINGTON AND TUTOR MONTAGUE.

In this School instruction is given in the Latin Language and Literature, and in Roman History. The School has four classes: the Freshman, Sophomore, Junior, and Senior, with the following text-books:

1. In the Freshman Class : Ovid; Livy; Harkness' Latin Grammar and Latin Prose Composition; and Liddell's History of Rome.
2. In the Sophomore Class : Cicero de Amicitia et de Senectute; Horace; and Harkness' Latin Prose Composition.
3. In the Junior Class : Tacitus and Juvenal.
4. In the Senior Class : Quintilian.

Lectures are given to the classes on Roman Literature.

In the two higher classes exercises in composition are continued by rendering into Latin English translations of passages from Latin authors. Madvig's, Zumpt's, and Allen and Greenough's Latin Grammar, in addition to Harkness's, Andrews' or White's Latin Lexicon, and Findlay's or Long's Classical Atlas, are recommended to students.

SCHOOL OF MODERN LANGUAGES.

PROFESSOR JANUS AND PROFESSOR SHUTE.

This School is divided into two Departments, the French and the German, of which the former is under the direction of Professor Janus, and the latter under the direction of Professor Shute.

In the French Department there are three classes : the Freshman, the Sophomore, and the Junior.

A course of grammatical instruction, with oral and written exercises, is begun in the Freshman Class. Text-books : Keetel's Collegiate Course ; *Leçons de Littérature Française Classique*.

In the Sophomore Class attention is given to higher grammatical analysis, and to exercises in French composition and conversation. Text-books : *Grammaire Française de Nœl et Chapsal*; Sailler's Exercises for translating English into French; Williams' Exercises in Conversation.

In the Junior Class portions of classical French authors are read in connection with the foregoing exercises.

Candidates for the degree of A. M. write original French essays during the fourth year of their course.

In the German Department there are three classes : the Freshman, the Sophomore, and the Junior.

Freshman Class : The study of the language is begun in this class.

Students are drilled in the grammatical principles of the language, and constant exercise is required in rendering English into German, as well as in translating German into English.

Text-Book : Otto's Conversation Grammar.

Sophomore Class : The study of the Grammar is continued throughout the year in this class also.

Text-Books : The Grammar, and Goethe's *Hermann und Dorothea*.

Junior Class : Schiller's *Jungfrau von Orleans*, and Selections from Goethe.

Candidates for the degree of A. M. write original German essays during the fourth year of their course.

SCHOOL OF MATHEMATICS.

PROFESSOR FRISTOE AND TUTOR GORE.

In this School are taught Pure Mathematics, Mechanics, and Astronomy.

There are four classes:

1. The Freshman, in which are taught Algebra and Plane and Solid Geometry.
Text-Books: Loomis' and Thompson's Algebras; Loomis' and Wentworth's Geometry.
2. The Sophomore, in which are taught Plane and Spherical Trigonometry and their application to Surveying, (with the use of Instruments,) and Analytical Geometry.
Text-Books: Loomis' Trigonometry and Surveying, and Olney's Analytical Geometry.
3. The Junior, in which are taught Differential and Integral Calculus, and their applications.
Text-Books: Olney's or Todhunter's Calculus.
4. The Senior, in which are taught Mechanics and Astronomy.
Text-Books: Peck's and Smith's Mechanics, and Loomis' Astronomy.

SCHOOL OF NATURAL SCIENCE.

PROFESSOR FRISTOE.

This School is divided into four classes:

1. The Freshman, in which are taught the principles of Human Physiology and Structural and Systematic Botany, and Zoology. By pursuing these studies in the early part of his course, the student becomes familiar with the methods of classification, and learns at the same time the habit and value of accurate observation.
Text-Books: Hutchinson's Physiology, Gray's Botany, and Nicholson's Zoology.
2. The Sophomore, in which are taught the various branches of Experimental Physics, viz.: Hydrostatics, Hydrodynamics, Pneumatics, Acoustics, Heat, Light, and Electricity.
Text-Books: Ganot's Natural Philosophy, and Silliman's Natural Philosophy.
3. The Junior, in which are taught Inorganic and Organic Chemistry, embracing the Principles of Chemical Philosophy, the Laws of Chemical Combination, the preparation of Elementary and Com-

pound Bodies, the methods of Analysis, Inorganic and Organic, the detection of Poisons, and the methods of counteracting their effects.

Text-Books : Barker, Roscoe, and Fowne.

4. The Senior, in which are taught Mineralogy and Geology. The instruction begins with general Mineralogy, as an introduction to Geology. In Geology, the Physical Characters of the Earth as it now exists are first studied, then its History and Changes, and lastly, the causes that have produced these Changes and their identity with existing causes.

Text-Books : Dana's Mineralogy and Geology.

In this School students who have passed through the class in Chemistry can pursue, at their option, Qualitative and Quantitative Analysis, for which an extra fee of \$50 will be charged, and also a small charge for materials.

THE SCHOOL OF PHILOSOPHY.

THE PRESIDENT.

The special studies of this School are pursued in two Classes, the Junior and the Senior. In the Junior Class the attention of students is directed to the study of Moral Philosophy. The text-book used is Calderwood's Hand-Book of Moral Philosophy, accompanied with lectures on the history of theoretical ethics, from the days of the Grecian philosophers down to the present time. In this historical review special attention is called to the phases of English speculation under the head of Moral Philosophy, with a critical reference to the main points of controversy from age to age among the exponents of different schools.

In the Senior Class the study of Natural Theology and of Mental Philosophy is pursued under the direction of the President, who also during the current year will serve as acting Professor of Political Philosophy; the latter embracing Political Economy, Constitutional Law of the United States, and the elements of International Law. The text-books used in the study of Natural Theology are Paley's Natural Theology and Butler's Analogy of Religion and Nature, accompanied with lectures on the more modern aspects of the questions discussed under this head. The text-book used for the purposes of recitation on Mental Philosophy is Porter's Intellectual Science, accompanied with lectures on the history of speculative philosophy and of its leading schools in ancient times, during the Middle Ages, and since the Revival of Learning.

In the study of Political Economy, as pursued in the Senior Class of this School, the text-book used is that of Dr. Wayland, with reference to the treatises of Adam Smith, Malthus, Bastiat, Carey, Mill, and others.

Story's Commentaries on the Constitution of the United States and Woolsey's Elements of International Law are used as text-books in the study of Political Philosophy.

A course of lectures is also delivered by the President to the Senior Class in this School on History, its sources, methods of study, elements of criticism, and its philosophy, with special critical references, under the last-named head, to the systems of Vico, F. Schlegel, Herder, Fichte, Schelling, Hegel, Bunsen, Guizot, Balme, Buckle, Draper, and Lecky.

CONSPECTUS OF STUDIES FOR THE DEGREE OF MASTER OF ARTS.

FRESHMAN STUDIES, FIRST YEAR.

FIRST TERM.

English.—Fowler's English Language; Composition; Eloquence.

Greek.—Xenophon's Anabasis, (Boise's or Kendrick's;) Boise's Exercises in Greek Syntax; Goodwin's and Hadley's Greek Grammar; Smith's History of Greece; Findley's or Long's Atlas.

Latin.—Ovid's Metamorphoses, (Andrews' or Allen and Greenough's edition;) Harkness' Latin Prose Composition; Harkness' Latin Grammar.

Modern Languages.—French: Keppel's Collegiate Course; *Leçons de Littérature Française Classique*; Oral and Written Exercises.

German: Otto's Conversation Grammar.

Mathematics.—Synthetic Geometry, (Loomis') and Wentworth's; Weekly Original Exercises.

SECOND TERM.

English.—Fowler's English Language continued, and Lectures.

Greek.—Homer's Iliad, (Boise's edition;) Hadley's Grammar and Boise's Exercises continued.

Latin.—Livy, (Lincoln's edition;) Latin Prose Composition and Grammar continued; Little's History of Rome.

Modern Languages.—Studies of First Term continued.

Mathematics.—Algebra completed, (Loomis' revised or Olney's University Algebra;) Original Problems.

SOPHOMORE STUDIES, (SECOND YEAR.

FIRST TERM.

English.—Rhetoric, (Campbell's;) Composition; Eloquence; English History, (Student's Hume.)

Greek.—Xenophon's Memorabilia, (Robbins' edition;) Exercises in Greek Composition continued.

Latin.—Cicero de Amicitia et de Senectute; Exercises in Latin Composition continued.

Modern Languages.—French: Grammaire Française, (Niel et Chapsal;) Sadler's and Williams' Exercises.

German: Otto's Conversation Grammar; Goethe's Hermann und Dorothea.

Mathematics.—Plane and Spherical Trigonometry; Surveying and Navigation. (Loomis') or Original Exercises.
Natural Science.—Physics. (Gamot and Silliman.)

SECOND TERM.

English.—Whateley's Rhetoric; Composition; Elocution; History of the United States. (Eliot's.)
Greek.—Herodotus or Thucydides; Exercises in Greek Composition continued.
Latin.—Horace. (Lincoln's edition;) Exercises in Latin Composition continued.
Modern Languages.—French: Studies of First Term continued.
 German: " " "
Mathematics.—Analytical Geometry. (Olney's;) Original Problems.
Natural Science.—Physics. (Gamot and Silliman.)

JUNIOR STUDIES, THIRD YEAR.

FIRST TERM.

English.—Shaw's English Literature. (Smith's edition;) Bowen's Logic; Composition.
Greek.—Sophocles and Euripides; Lectures on History of Greek Literature; Exercises in Greek Composition.
Latin.—Tacitus; Lectures on History of Latin Literature; Exercises in Latin Composition.
Modern Languages.—French: Molière and Paseal.
 German: Selections from Schiller and Goethe.
Mathematics.—Differential Calculus. (Olney's or Todhunter's;) Original Exercises.
Natural Science.—Inorganic Chemistry. (Barker's.)
Philosophy.—Moral Philosophy. (Alderwood's.)

SECOND TERM.

English.—Logic. (Thomson's Laws of Thought;) English Philology; Composition; Elocution.
Greek.—Demosthenes; Lectures and Exercises continued.
Latin.—Juvenal; Lectures and Exercises continued.
Modern Languages.—French: Molière and Paseal; Lectures on French Literature.
 German: Schiller and Goethe; Lectures on German Literature.
Mathematics.—Integral Calculus. (Olney's or Todhunter's;) Original Exercises.
Natural Science.—Organic Chemistry. (Evans or Wheeler.)
Philosophy.—Alderwood's Moral Philosophy; Lectures on History of Moral Philosophy.

SENIOR STUDIES, FOURTH YEAR.

FIRST TERM.

English.—Original Essays and Original Orations.
Greek.—Plato.

Latin.—Quintilian.

Modern Languages.—French : Original Essays.

German : Original Essays.

Mathematics.—Mechanics, (Smith or Peck.)

Natural Science.—Physiology and Zoology.

Philosophy.—Natural Theology, (Paley and Butler;) Intellectual Philosophy (Porter's) begun; Political Philosophy, (Story;) History; Lectures on Sources, Methods of Study, and Principles of Criticism.

SECOND TERM.

English.—Original Essays and Original Orations.

Greek.—Plato.

Latin.—Quintilian.

Modern Languages.—French : Original Essays.

German : Original Essays.

Mathematics.—Astronomy, (Loomis').

Natural Science.—Geology, (Dana's.)

Philosophy.—Intellectual Philosophy (Porter's) continued; Lectures on History of Philosophy.

Political Philosophy : Wayland's Political Economy and Woolsey's International Law.

History : Lectures on Philosophy of History.

ELECTIVE STUDIES.

English.—The study of the Anglo-Saxon is optional, being open to students of any class, and not being required for a degree.

The text-books used in this study are as follows : Shute's Manual of Anglo-Saxon ; March's Anglo-Saxon Grammar ; Corson's Handbook of Anglo-Saxon and Early English.

Natural Science.—Qualitative and Quantitative Analysis.

SCHEDULE OF LECTURES AND RECITATIONS.

TIME AND TERMS OF ADMISSION.

The regular examinations for admission to the College are held on the Monday and Tuesday immediately preceding the opening of the session. Every applicant is required to deliver to the President testimonials of good moral character; and if he comes from another college he must present a certificate of honorable dismission.

Candidates for admission to any class of the College must, unless they are graduates of the Preparatory School, sustain an examination in the following elementary studies: Spelling, English Grammar, Geography, Elements of History, and Arithmetic.

Candidates for admission to any School will be examined in all the studies presupposed by the curriculum of that School.

Candidates for admission to the School of English will be admitted to its lowest class on passing a satisfactory examination in the preliminary studies above indicated.

Candidates for admission to the School of Greek in its lowest class, the Freshman, will be examined in Goodwin's or Hadley's Greek Grammar; Goodwin's Greek Reader, or Xenophon's Anabasis, (first three books;) Jones' Greek Prose Composition.

Candidates for admission to the School of Latin in its lowest class will be examined in Harkness' Latin Grammar; Caesar's Commentaries; Cicero's Select Orations; Virgil; Harkness' Latin Prose Composition.

Candidates for admission to the School of Mathematics, in its lowest class, the Freshman, will be examined in Algebra, (to Quadratic Equations,) and in the first three books of Geometry.

Real equivalents in quality and amount will be received in place of the books or parts of the books prescribed as above for study preparatory to admission into the Schools of Greek, Latin, and Mathematics.

Candidates for admission to any advanced class in any School will be examined in all the previous studies of the class which they purpose to enter.

Students wishing to pursue a Select Course in any School or Schools will be admitted to the classes for which they may be found qualified; but an examination in preliminary and indispensable studies will be held in all such cases, and every student pursuing

such a course is required to embrace in his selections not less than twelve recitations or lectures per week. The choice of studies embraced in a Select Course must be made immediately upon the commencement of a term, and no student will have leave to make a new choice of studies during any single term.

CERTIFICATES AND DIPLOMAS.

The degrees of the College are conferred only on evidence of satisfactory attainments in the studies prescribed for any given degree. The eligibility of candidates for any degree is determined by the quality and the extent of their studies in the several Schools of the College.

I. Certificates of Proficiency are given to students who pass a satisfactory examination on the following studies of the several Schools: In the *First*, on English Literature, History, and Rhetoric; in the *Second*, on the Greek of the Freshman and Sophomore Classes; in the *Third*, on the Latin of the Freshman and Sophomore Classes; in the *Fourth*, on the French or the German language; in the *Fifth*, on the Mathematics of the Freshman and Sophomore Classes; in the *Sixth*, on the Chemistry of the Junior Class; in the *Seventh*, on Mental or Moral Philosophy.

II. Students who pass a satisfactory examination on all the obligatory studies embraced in any one of the Schools of the College will receive a diploma certifying the fact of their graduation in that School.

DEGREES.

I. The degree of Bachelor of Letters is conferred on students who obtain diplomas in the Schools of English, Greek, Latin, Modern Languages, and Philosophy, and who receive a certificate of proficiency in the School of Mathematics or of Natural Science.

II. The degree of Bachelor of Science is conferred on students who obtain diplomas in the Schools of English, Modern Languages, Mathematics, Natural Science, and Philosophy.

III. The degree of Bachelor of Arts is conferred on students who obtain diplomas in any six Schools, and who receive a certificate of proficiency in the residuary School of the entire course.

IV. The degree of Master of Arts is conferred on students who, after obtaining diplomas in all the Schools of the College, shall

sustain a final and satisfactory examination in review of all the studies prescribed for this degree.

Certificates and diplomas in any School of the College are awarded only at the close of the College year in each School, and after an examination duly had according to the rules of the institution.

EXAMINATIONS.

At the end of each term an examination of all the classes in all the Schools is publicly held in all the studies of that term.

The results of each Term Examination are combined with those of the daily recitations and attendance of the student during the term, in order to ascertain his academic standing at the end of that term.

Each recitation and each examination are graded on a scale of merit from 0 to 100, and a failure to reach the final average grade of 75 in any study is regarded as a failure in that study.

At the close of each College year all the classes in all the Schools are publicly examined in review of all the studies of that year.

The results of the Annual Examinations are combined with those of the Term Examinations, in order to ascertain the student's academic standing at the end of each year.

At the close of the second year of the regular course, prescribed for all the degrees of the College, the Annual Examination of the Sophomore classes in the several Schools, besides embracing all the studies of that year, will include such studies of the Freshman year as the head of each school may direct. The results of this examination will determine the eligibility of candidates to receive a Certificate of Proficiency at the end of this year in the school of Greek, Latin, or Mathematics, as the condition of attaining in regular course to one or another of the degrees dependent on such proficiency.

At the close of the regular four years' course all candidates for the degree of Master of Arts will be publicly examined by way of review in all the studies of all the Schools prescribed for that degree.

A student who fails to pass a satisfactory examination in any study at the end of a college year may present himself for re-examination in that study at the end of the following year, and in

default of doing so shall forfeit promotion with his class in that department.

All examinations which occur at the end of a College year are conducted in writing. Examinations for the degree of Bachelor of Arts and Master of Arts are concluded four weeks anterior to the date of the Annual Commencement, that time may be given to Professors for the inspection of written examination papers, and to students for the preparation of parts to be performed on Commencement Day by the successful candidates for the degrees of Bachelor and Master of Arts, to whom public parts on that day may be assigned by the Faculty.

ANNUAL PRIZES.

Besides the honors and degrees conferred in the regular course, prizes are annually offered as the rewards of special excellence in particular branches of study.

The Davis Prizes, for excellence in Elocution, founded by the Hon. Isaac Davis, LL. D., of Massachusetts, consist of two gold medals, and are annually awarded to the two successful competitors in a public contest held on Commencement Day. These prizes are awarded by a committee whom the Faculty selects for this purpose, and are publicly delivered at the close of the contest.

The Staughton Prize, for excellence in the Latin Language and Literature, and the Elton Prize, for excellence in the Greek Language and Literature, founded by the Rev. Romeo Elton, D. D., of Exeter, England, consist of two gold medals, annually awarded to the best scholar and writer in each of these languages.

The Ruggles Prizes, for excellence in Mathematics, founded by Prof. William Ruggles, LL. D., consist of two gold medals, annually awarded to the best two scholars in the pure and applied Mathematics.

The Young Prize, for excellence in Metaphysics, the gift of the Hon. Edward Young, Ph. D., of Washington, D. C., is a gold medal annually awarded to the best student in Mental Philosophy.

Any student entitled to a diploma in any school will be allowed to contend for the prizes given in that department, provided he shall have pursued the required number of studies during the year, and shall have passed satisfactory examinations in the same.

PRIZEMEN FOR THE YEAR 1877-'78.

In the collegiate year of 1877-'78 the following are the names of students who were the successful contestants for the various prizes:

The Elton Prize in Greek was awarded to **WILLIAM B. KING**, of the District of Columbia.

The Stoughton Prize in Latin was awarded to **WILLIAM B. KING**, of the District of Columbia.

The Young Prize in Metaphysics was awarded to **HARRY C. DAVIS**, of the District of Columbia.

The Ruggles Prize in Mathematics was awarded to **RANDOLPH C. HYATT**, of the District of Columbia.

The First Davis Prize in Elocution was awarded to **J. C. S. RICHARDSON**, of the District of Columbia.

The Second Davis Prize in Elocution was awarded to **HARRY C. DAVIS**, of the District of Columbia.

The gold medal for Excellence in Debate was awarded by the Eno-sian Society to **J. C. S. RICHARDSON**, of the District of Columbia.

ORDERS OF THE COLLEGE YEAR.

TERMS AND VACATIONS.

The College year, embracing nine months, is divided into two terms. The first term begins on the second Wednesday in September, and continues to the first Thursday in February. The second term begins on the first Thursday in February, and ends on the second day of the Annual Commencement, which is held on the second Wednesday in June.

A vacation of eight days is given at Christmas, beginning on that holiday, and lasting until the next day after New Year's.

The 22d of February is observed as a College holiday.

A recess is given from Good Friday to Easter Monday, inclusive.

ANNUAL COMMENCEMENT.

The Annual Commencement of the College is held on the second Wednesday in June.

Public parts are assigned on Commencement Day to such students only as have passed a satisfactory examination for the degrees of Bachelor or Master of Arts, except, as before indicated, in the case of those who may be contestants for the prize in Elocution.

A Latin Salutatory will be awarded to the graduate in each year whose average standing in all the Schools is the highest ; and an English Salutatory to the student who stands second.

The Valedictory is awarded with special regard to the qualifications of the student as a Valedictorian, as well as on the ground of scholarship.

Philosophical, Classical, Scientific, Metaphysical, Ethical, Historical, or Literary Orations may be awarded to students who are eminent respectively in the corresponding Departments.

All the degrees of the College are publicly conferred on Commencement Day.

Diplomas in the several Schools, and prizes for special excellence in any Department, are publicly delivered on the same day.

PUBLIC WORSHIP.

Prayers, accompanied by the reading of the Scriptures, are offered daily in the College Chapel. All students are required to attend this service : and those who reside in the College are required also to attend Divine service on Sunday at such church as their parents may indicate, in writing, to the President, and during the day are expected to abstain from any conduct or practice inconsistent with its proper religious observance.

LIBRARY HOURS.

The College Library will be open for the distribution of books, as also for purposes of consultation and inquiry, on such days and under such regulations as the Faculty may direct at the beginning of each year. Measures have recently been taken by the Board of Trustees and Overseers for the improvement of the Library in its contents and its appointments.

The Libraries of Congress and of the various Departments of the Federal Government are also accessible to students for purposes of research in any special line of studies.

LITERARY SOCIETIES.

The Enosian Society, a literary association, formed by the students of the College, meets weekly in its hall for the purpose of improvement in Debate and Composition.

LECTURES.

Courses of Lectures in various departments of Science, Art, and Literature are open to the attendance of students, not only in the College, but in connection with various Associations, national and local, devoted to general culture at the Capital of the country, and furnishing peculiar facilities for information and improvement in every branch of liberal learning.

As the endowments of the University shall be enlarged by the munificence of patrons and benefactors, it is proposed to render available, for purposes of higher education, the rich collections of the Smithsonian Institution and Agricultural Department in science and natural history, and those of the United States Patent Office in technology. It is also hoped that the scheme of instruction pursued in the University may ultimately enlist in its service the scientific learning now connected with the United States Coast Survey and the National Observatory, while the Corcoran Gallery of the Fine Arts cannot but serve as a valuable auxiliary to aesthetic culture.

GENERAL ORDERS.

Every student on entering the College is understood by that act to come under a pledge that he will obey the rules and regulations prescribed by the Board of Trustees and Overseers, and by the Faculty acting under the authority of the Board.

A pamphlet copy of the Laws of the College will be furnished to every student on his admission.

A merit roll of conduct is kept, and demerits are given for unexcused absences and for violation of College laws. When any student has received one hundred such marks during any one term, or one hundred and fifty during any one year, he may be required to leave the institution.

A report of the student's standing in all his studies, including a record of all absences from lectures, recitations, or other public exercises of the College, will be rendered quarterly to parents or guardians.

The daily recitations of the College Classes are brought, as far as practicable, into the early portion of the day, closing generally

at 2.30 o'clock P. M., and on Saturday at 11 o'clock A. M. The advantages of an attendance upon the debates of Congress, and upon lectures before various associations, are thus offered to students of the higher classes without detriment to proficiency in their studies. Any parent or guardian who desires a special privilege for his son or ward in this respect must, however, signify it in writing to the President.

COLLEGE EXPENSES.

CHARGES FOR STUDENTS RESIDING IN COLLEGE.

| | |
|---|---------|
| 1. Admission Fee, (paid but once, on entrance)..... | \$10 00 |
| 2. Tuition for the year in three or more schools..... | 60 00 |
| 3. Tuition for the year in two Schools..... | 45 00 |
| 4. Tuition for the year in one School | 30 00 |
| 5. Room rent and servants' attendance..... | 20 00 |
| 6. Fuel, public and private, (estimated)..... | 16 00 |
| 7. Use of furniture, provided by the College..... | 12 00 |
| 8. Board for 39 weeks, at \$4.50 per week, (estimated)..... | 175 50 |
| 9. Washing, at 75 cents per dozen. | |

CHARGES FOR STUDENTS NOT RESIDING IN COLLEGE.

| | |
|---|---------|
| 1. Admission Fee, (paid but once, on entrance)..... | \$10 00 |
| 2. Tuition for the year in three or more Schools..... | 60 00 |
| 3. Tuition for the year in two Schools..... | 45 00 |
| 4. Tuition for the year in one School..... | 30 00 |
| 5. Room rent and servants' attendance..... | 20 00 |
| 6. Fuel, public and private, (estimated) | 16 00 |
| 7. Use of Furniture..... | 6 00 |

From the foregoing statement it will appear that the necessary annual expenses of a student residing at the College need not exceed the sum of three hundred dollars. By the practice of economy some reduction might be made from this amount.

The charge for room rent, servants' attendance, and for fuel, as above estimated, are based upon the assumption that two students occupy the same room. Students having the exclusive occupation of a room will be charged one-half in addition to the foregoing rates.

It is recommended that students who reside in the College should furnish their own rooms, and thus avoid the annual charge made for the use of such furniture as is provided by the College.

THE PREPARATORY SCHOOL.

CORPS OF INSTRUCTORS.

OTIS T. MASON, A. M., Principal, and Instructor in History and the English Language.

ANDREW P. MONTAGUE, Instructor in Latin.

ANTHONY H. JANUS, Instructor in French.

HARRY C. DAVIS, A. B., Instructor in Greek.

J. HOWARD GORE, Instructor in Mathematics.

EDWIN B. HAY, A. B., LL. B., Instructor in Book-keeping, and Penmanship.

This School is placed under the special charge of the Principal, who controls and directs its operations, with the aid of assistant instructors, and with the advice and co-operation of the College Faculty, all of whom supervise the work of the School by participating in the instruction of the highest classes in their several departments. Its full course of study extends through four years, and includes Reading, Writing, Spelling, Grammar, Rhetoric, Geography, History, Botany, Arithmetic, Algebra, Geometry, Book-keeping, French, Latin, and Greek, and exercises in Composition and Declamation.

The Preparatory School is designed to afford a thorough preparation for the College. It furnishes also a High School Course, occupying two years, for pupils who have completed their studies in the common English branches, either in the Public Schools, or elsewhere.

SCHEME OF STUDIES IN THE PREPARATORY SCHOOL.

FIRST YEAR: FOURTH CLASS.

FIRST TERM.

Reading.—The Franklin Sixth Reader.

Spelling.—Worcester's Primary Speller.

Arithmetic.—Thomson's New Practical and Mental.

Geography.—Swinton's complete course.

History.—Anderson's Cyclopedic School of United States.

Grammar.—Fowler's Common School.

Latin.—Harkness' Introductory Latin Book.

Declamation, Composition.

Penmanship, Map Drawing.

SECOND TERM.

- Reading.*—The Franklin Sixth Reader.
Spelling.—Worcester's Practical Speller.
Arithmetick.—Thomson's New Practical and Mental.
Geography.—Swanson's Complete Course.
History.—Anderson's Grammar of the United States.
Grammar.—Fowler's Common School.
Latin.—Harkness' Reader and Grammar, with Prose Composition combined.
Declamation, Composition.
Pronunciation, Map Drawing.

SECOND YEAR: THIRD CLASS.

FIRST TERM.

- Reading.*—The Franklin Sixth Reader.
Spelling.—Swinton's Word Analysis.
Grammar.—Fowler's Common School.
Arithmetick.—Thomson's New Practical and Mental.
Physical Geography.—Glazebrook's.
Latin.—Harkness' Reader, Grammar, and Prose Composition.
Greek.—Goodwin's Grammar, with White's First Lessons.
Bookkeeping.—Bryant and Stratton's Common School.
Declamation, Composition, Penmanship.

SECOND TERM.

- Reading.*—The Franklin Sixth Reader.
Spelling.—Swinton's Word Analysis.
Grammar.—Fowler's Common School.
Arithmetick.—Thomson's New Practical and Mental.
Botany.—How Plants Grow, Gray's.
Latin.—Harkness' Reader, Grammar, and Prose Composition.
Greek.—Goodwin's Grammar, with White's First Lessons.
Bookkeeping.—Bryant and Stratton's Common School.
Declamation, Composition, Penmanship.

THIRD YEAR: SECOND CLASS.

FIRST TERM.

- Reading.*—Selections from Standard Authors.
Spelling.—Swinton's Word Analysis.
Grammar.—Kerr's Composition and Rhetoric.
Arithmetick.—Davis's University.
History.—Anderson's General.
Bookkeeping.—Bryant and Stratton's Common School.
Latin.—Harkness' Classical Grammar, and Prose Composition.
Greek.—Goodwin's Grammar and Reader, White's First Lessons Combined.
Algebra.—Thomson's.
Declamation, Composition, Penmanship.

SECOND TERM.

- Reading*.—Selections from Standard Authors.
Spelling.—Swinton's Word Analysis.
Grammar.—Kerl's Composition and Rhetoric.
Arithmetic.—Davies' University.
History.—Anderson's General.
Book-keeping.—Bryant and Stratton's Common School.
Latin.—Harkness' Cicero, Grammar, and Prose Composition.
Greek.—Crosby's Anabasis, and Goodwin's Grammar.
Algebra.—Thomson's.
Declamation, Composition, Penmanship.

FOURTH YEAR: FIRST CLASS.

FIRST TERM.

- Reading*.—Anderson's Historical Reader.
Rhetoric.—Bonnel's Manual.
Arithmetic.—General Review.
Latin.—Chase and Stuart's Virgil, with Harkness' Grammar, and Prose Composition.
Greek.—Crosby's Anabasis, and Goodwin's Grammar, with Jones' Exercises in Greek Prose Composition.
French.—Keetel's Collegiate French Course.
Algebra.—Thomson's.
Geometry.—Loomis' and Wentworth's.
Declamation, Composition, Penmanship.

SECOND TERM.

- Reading*.—Anderson's Historical Reader.
Rhetoric.—Bonnel's Manual.
Arithmetic.—General Review.
Latin.—Chase and Stuart's Virgil, with Harkness' Grammar, and Prose Composition.
Greek.—Crosby's Anabasis, and Goodwin's Grammar, with Jones' Exercises in Greek Prose Composition.
French.—Keetel's Collegiate Course, and Voltaire's Charles XII.
Algebra.—Thomson's.
Geometry.—Loomis' and Wentworth's.
Declamation, Composition, Penmanship.
Books for reference or use in all the classes : Worcester's Dictionary, Worcester's Pronouncing Speller, Webster's Dictionary, and Baird's Classical Manual.

TERMS AND VACATIONS.

The Scholastic Year begins on the second Wednesday in September, and ends on the Tuesday before the third Wednesday in

June. The year is divided into two terms. The first term ends on the Friday preceding the third Monday in February. The second term begins on the third Monday in February.

There is a vacation of eight days at Christmas, beginning on that holiday and lasting till the next day after New Year's. The 22d of February is observed as a holiday. A recess is given from Good Friday to Easter Monday, inclusive.

The School Hours are from 9 o'clock A. M. to 2.30 P. M., with an intermission of half an hour at 1 o'clock P. M.

DISCIPLINE.

The School professes to be conducted on Christian principles, both in its discipline and in its instructions; but no instruction is given and no influence exerted in favor of any peculiar denominational tenets.

In addition to daily recitations, an examination is held at the end of each term on all the studies of that term.

The graded scale of merit used in the School ranges from 0 to 10, and each student must reach the grade of 7 in order to be advanced with his class.

The progress of the scholar is stimulated by daily records, by monthly and term reports to parents, by promotion in his class, and by prizes.

The boarding scholars lodge in the house of the Principal, and are treated as members of the family. They are responsible to him for their conduct at all times. In addition to regular school duties, they are required to attend study hours in the evening, under the oversight of the Principal. They are also required to attend the church of their parents' selection, and to spend a portion of every Sunday in Biblical study, unless excused by the written request of their parents.

EXPENSES.

DAY SCHOLARS.

| | |
|------------------------------|---------|
| For the Scholastic Year..... | \$68 00 |
|------------------------------|---------|

BOARDING SCHOLARS.

AUDITORS' REPORT.

WASHINGTON, June 2, 1879.

To the Corporation of the Columbian University.

GENTLEMEN: In obedience to the resolution of your body, of June 29, 1875, the Auditing Committee respectfully report, that they have this day carefully examined the bonds, notes, and other securities belonging to the corporation, in possession of the Treasurer, and find them to agree with the list of last year, and also to include evidences of additional investments, and to correspond with the schedules prepared by him and forming part of this report.

The committee have also carefully examined the detailed statements of the Treasurer, exhibiting the receipts and expenditures for the year ending the 31st ultimo, and find the same to be correct, and the vouchers to agree with the stated disbursements. The report also contains full information in reference to all property of the institution, and the condition of the investments.

The schedule of city property represents its value as appraised for taxation. The cash in the Treasurer's hands at this date is \$3,055.33, of which \$1,016.40 belongs to the Corcoran endowment fund, and is for investment only.

Respectfully submitted,

HENRY BEARD,

A. ROTHWELL,

J. O. WILSON,

Committee.
